On page 16 of the Specification:

Replace the first full paragraph beginning "Table 1 shows results...", with the replacement paragraph as follows:

Table 1 shows results of measured AA in several exemplary test subjects on whom versions of the method 10 of the present invention were performed. The evaluations were conducted under standard conditions. The near-vision visual acuity test comprised the Jaeger Test, using cards J16, J5 and J2. The predetermined range 24 was identified to be 20 centimeters long and having a nearest point 20 distance range of between 20 centimeters and 40 centimeters from each test subject's eye 12 on the basis of the relatively straight line relationship of overall lens power between 20 cm and 40 cm (overall power = 5D at 20 cm and 2.5D at 40 cm).

(SeeRefer to Figure 16Graph 1, supra.)
